

Moderator App

“ Disruptive Moderator app to make the event organizers life easy ”

- Moderator can perform quick check-in with QR code/Barcode for an event ticket.
- EventiPlex helps keep track of registered and attended users for each assigned event and allows moderators to notify them for any updates.
- Facilitate admin to dynamically build app pages, configure menu and manage moderators for events.

The EventiPlex Advantage

Quick bi-directional integration to Student Information Systems (SIS) and Constituent Relationship Management (CRM) including but not limited to

- CampusNexus® CRM
- Microsoft Dynamics CRM
- CiviCRM
- SIS/ERP

One solution for all iOS/Android devices and browsers. EventiPlex enable Students, Educators, Event Managers and Moderators to use the system seamlessly.

EventiPlex solution increases student engagement with news & articles, instant push notifications, multi-media content, polls, feedback, reminders and much more.

EventiPlex is designed with the user first approach. Built with a platform to support Usability, Accessibility and Internationalization (I18N) which makes it easy for everyone to use the system.

EventiPlex Event Management Solution for Higher Education

EventiPlex is a Mobile and Web enabled event management platform that seamlessly fits every event management needs. Events are core to any higher education journey and EventiPlex makes them memorable.
